

REMARKS

All pending claims were rejected on the grounds of double patenting and anticipation and/or obviousness over Patent No. 6,454,938.

Attached here to is a packet of documentation with respect to the '938 patent which includes a petition to correct inventorship by addition of Gary Schultz, Thomas Corso, and Stephen Lowes as inventors. Also in this packet is an assignment from Kionix, Inc. to Advion Biosciences, Inc. of a full, joint and undivided right, title and interest in this patent.

In view of identical ownership in the present application and in the '938 patent, a terminal disclaimer is provided herewith in satisfaction of the double patenting rejection. The petition to correct inventorship renders moot the Examiner's rejection based on different inventors in the two cases.

Applicants respectfully request that this application be allowed.

DATED this 24th day of November, 2003

Respectfully submitted,
